Innsbruck

Innsbruck, the capital city of Tyrol, is one of the historically most important cities of Austria. The Center is known worldwide for its numerous gothic buildings. One of the best known is the „Goldene Dachl “ (golden roof). Also worth visiting is the imperial castle as well as Schloss Ambras, the olympic ski jump at Berg Isel, overlooking the city and the Hofkirche with its „black man “ and the tomb of emperor Maximilian (of Mexico).

The name Swarovski is a worldwide synonym for high tech optical instruments, binoculars and so on. But also it is known for being the only producer and manufacturer of Crystal Glass, worldwide. The Crystal World, just beside the factory, offers an overview of the various Crystal products. Step into a breathtaking world of Crystal, inside an artificial hill, designed by the Austrian Artist Andre Heller. Something to remember a lifetime.
