To summer sledges - family land

You are taken up Huggenberg mountain by an open chairlift. After reaching the top you can either enjoy the wonderful panoramic view at a typical Austria restaurant or start action directly. You will get a kind of bob and start sliding down the hill. The track is about 1600 m long and has about 63 turns and one little jump. It is an exciting but save run in a half pipe and you can regulate speed by pushing or pulling the steering handle. The minimum age for children to ride alone is 6 years. Younger ones you just take in between your legs. The facility is closed when bad weather or raining.

In the family leisure park more than 40 attractions are waiting for you. You will find something for children of all ages and even for the parents, Tram Pole, pond, to climbing, slide tower, Juggling bridge, besides offering lots of fun and thrills also train your child Balance sense and sense for motion. Also there is a fairly big zoo with small animals the children can touch and play with so they also learn about this. All in all a place worth visiting.
